## DETAILED ACTION

### *Allowable Subject Matter*

1. Claims 1, 3, 4, 6-20, 22, 23, 25-39, 42-46, 49, and 50 are allowed.

The following is an examiner's statement of reasons for allowance:

U. S. Publication 2003/0018450 to Carley is the reference closest to the claimed invention.

Carley discloses a method of analyzing a set of values, comprising: (a) defining a plurality of subsets of contiguous values within the set of values; (b) determining a measure of variation for each of the plurality of subsets to produce a plurality of measures of variation corresponding to the plurality of subsets; and (c) categorizing the set of values based upon an analysis of the plurality of measures of variation. However, Carley does not teach (a) defining a plurality of subsets of contiguous values within a set of values comprising residual values that represent a difference between data element values of a predicted model data set and data values of a measured data set; (b) determining a measure of variation for each of the plurality of subsets to produce a plurality of measures of variation corresponding to the plurality of subsets; and (c) categorizing the set of values based upon an analysis of the plurality of measures of variation; and including all of the other limitations in the respective independent claims.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
